PROFESSIONAL SUMMARY

Data Analyst with three years of experience working as a Data Analyst. Strong problem-solving, analyzing, and researching skills. Experienced in modeling, interpreting, and reporting data. Recognized for maximizing performance by implementing and managing appropriate project analysis.

EXPERIENCE

Data Analyst, StorageVault Canada Inc   Sep 2018 – Present
- Successfully interpreted data to draw conclusions for managerial action and strategy.
- Used statistical techniques for hypothesis testing to validate data and interpretations.
- Build reports and communicated the results and recommendations to the leadership team.
- Created static and ad-hoc deliverables to communicate performance and increased efficiency by 30%.
- Designed, coded, tested, maintained, and documented dashboard visualizations.

Data Entry Clerk, UN Association in Canada   June 2015 – Sep 2018
- Expanded the portfolio of sponsors by tracking and processing monthly changes and troubleshooting in the database.
- Generated regular reports and data exports, including tax receipts, gift acknowledgments, and membership lists.
- Processed contact and gift donation into Raiser's Edge a fundraising and constituent relationship management (CRM) system and saved the department 30 hours of manual work each week.
- Grew 20+ sponsors and donors by assisting with research.

PROJECTS

COVID-19 in the US Descriptive Analysis, CareerFoundry   Feb 2021
